## Wind Resources, Exclusions, and Resource Sensitivities on BLM-Administered Lands in Arizona

Map Prepared October 2016 (Note 1)

Property of the U.S. Department of the Interior

↓ 0 5 10 15 30 Miles			Excl	usions	High Level of Siting Considerations	Moderate Level of Siting Considerations	<b>Note 1</b> This map was constructed using the best available geospatial data	Note 5 Decisions made as part of the Desert Renewable Energy Conservation
N 0 5 10 15 30 N Kilometers	Excluded Areas	Mapped Areas 2,921,389 acres	Area of Critical Environmental Concern DRECP California Desert National Conservation	National Scenic Trail Other Designated NLCS Lands (Note 7)	California Condor, Mexican Spotted Owl, and Northern Spotted Owl Designated Critical Habitat	Bald Eagle, Golden Eagle, and Aplomado Falcon Potentially Suitable Habitat Distribution (Note 8)	and may contain errors. Geospatial data are not complete across the mapped area for some resources. Acreage estimates are based on BLM State Office boundaries, which in some cases differ slightly	Plan (DRECP) have been incorporated into this map as reflected in the DRECP Record of Decision issued in September 2016.
		2,521,505 acres	Land (Note 5 ) DRECP Development Focus Area Restricted to Solar and/or Geothermal Energy	Properties Listed on the National Register of Historic Places Resource Management Plan Wind Exclusion Area	DRECP Extensive Recreation Management Area Department of Defense Area of High Risk of Adverse Impact	BLM Back-Country Byway DRECP Variance Land Department of Defense Restricted Airspace and	from state boundaries. Mapping is intended for use in large-scale win energy planning and is not suitable for individual project siting or review. Topography, roadway accessibility, economic factors, and	Note 6 Although it is a National Conservation Area, the California Desert Conservation Area is not excluded from wind energy development.
	Potentially Developable Areas		Area	Right of Way Exclusion Area Sage Grouse Priority Habitat Management Area,	Desert Tortoise Designated Critical Habitat Designated BLM Utility Corridor Designated Critical Habitat for ESA-Listed Species	Military Training Route Desert Wildlife Management Area Designated Special Status Species Management Area	other resources were not considered in this mapping effort. Appendix B of the West-Wide Wind Mapping Project Final Report identifies the geospatial data layers used in this effort. The final	Note 7 Other designated NLCS lands include Cooperative Management and
